Livestock Exhibitors Disease Control Obligations

The health of all animals and people present during the Great Yorkshire Show (GYS) is of paramount importance to the organisers. As such, we would like to remind livestock exhibitors of their responsibilities with respect to the health of their animals.

Only fit and healthy animals should be transported to the Show. Any clinical signs of disease, however mild, detected on farm must result in the affected animal(s) remaining at home and not travelling to the GYS. This is the cornerstone on which high levels of Biosecurity can be built at the Show. Once on the Showground, if any animals develop any signs of illness one of the Show Veterinarians should be alerted immediately.

If we all ensure only healthy animals arrive at the GYS and if any animal becomes sick at the show, prompt veterinary care is sought, we minimise the risk of:

- - A Notifiable Disease Outbreak
- - Zoonotic Infections passing from livestock to people.
- - Endemic Veterinary Diseases spreading between pens/stalls.

Thank you for your cooperation and understanding.

To be held at 9.00am.

The Great Yorkshire Show is one of several Agricultural Shows staging a qualifying round for the 'Pig of the Year' Award, organised by the British Pig Association. The award is open to all breeds of pedigree pigs entered in this Show. The object is to determine the best modern and traditional respective breeds. All animals entered in this Competition must be the property of a member of the British Pig Association or the British Lop Society and must be registered in a herd book of The British Pig Association or the British Lop Pig Society.

To be eligible for a qualifying round a pig (male or female) must be born on or after 1 July of the year previous to the Show. A pig judged Best Male (Modern or Traditional) or Best Female (Modern or Traditional) in a qualifying round cannot compete in any subsequent round. If a pig having qualified at an earlier show again qualifies at a later show the judge for that breed shall select an alternative pig of the same breed and sex from any class covering the required age group. Where a single breed has more than one class covering the required age group for either sex, so permitting more than one 1st prize animal, the judge must nominate one of these for the qualifying round. Where there are multi-breed classes, i.e. any other modern/any other traditional breed or a similar classification, the judge must nominate the best male and best female of the qualifying age of each breed represented (regardless of class prizes). These pigs will compete in the qualifying round with eligible entries from individual breed classes. At each qualifying round the judge will select the Best Male from a Modern Breed, Best Male from a Traditional Breed, Best Female from a Modern Breed, Best Female from a Traditional Breed and Best Pig.

Prize money for preliminary rounds will be £10 for the best Modern Breed pig of each sex and £10 for the best Traditional Breed pig of each sex, with £10 and a glass trophy for the overall winner. Please note: Rosettes only will be presented at each preliminary round. Prize monies and glass trophies for preliminary rounds will be presented at the Final.

Livestock must be under the control of a competent handler using approved restraints when being moved around the public areas on the showground and into the judging rings and safeguards are in place to prevent an animal from escaping.

In the Young Handler classes where a child is under 14 years of age, they must be supervised by an experienced adult handler who is able to restrain/control the animal in an emergency.

In the interests of public safety livestock exhibitors will keep the movement of livestock to a minimum when the show is open to the public and during transfers from their stalls to judging rings and back and will restrict movement of livestock to controlled areas designated by the organisers. Livestock must not be left unattended at any time in public areas whether restrained or otherwise unless in a secure stall and it is the responsibility of the exhibitor to ensure that stalls are secure and livestock cannot escape when they are being viewed by the public.

Livestock exhibitors will indemnify the Yorkshire Agricultural Society for any losses suffered as a direct result of their failure to provide competent handlers and/or any negligent act on the part of the handler or owner which is in direct contravention of this policy or the Show Regulations.

Livestock exhibitors are responsible for ensuring that any workers under their control or direction who are engaged in disinfecting activities are made aware of the risks and the control measures in place. Exhibitors are responsible for providing their own personal protective equipment and that they or their agents use this equipment.

The organiser reserves the right to restrict the movement of people through the cattle lines whilst judging or livestock movement is in progress.

### **Vehicle Movements/Speed Limits on the Showground**

Vehicle movements are not permitted on the Showground when the Show is open to the public except essential service and emergency vehicles. The maximum speed limit on the showground for any type of mechanically driven vehicle including ATV's and Quad bikes is 20 mph. This should not be exceeded under any circumstances and due care and consideration should be demonstrated by the drivers of all vehicles when the show is open to the public particularly in crowded public area's and when livestock and horses are moving or visible.

In public area's if the volume of the public in these areas is so great as to be a hazard or risk to the drivers of mechanical vehicles they should not enter these area's until it is safe to do so. The safety of the public and workers on foot is of primary consideration at all times regardless of the purpose that the vehicle is being used for. The use of All Terrain and Off Road Utility Vehicles is prohibited on the Showground unless their use has been authorised in advance by the Society.

## **Risk Assessment**

A copy of the risk assessment is available on request from the Operations Manager.

The Risk Assessment is a legal document and will be made available in the event of any subsequent claim or investigation against the YAS or an exhibitor or contractor for negligence or damages arising from any act or incident at the Great Yorkshire Show.

The designated area used for disinfection is maintained in a safe condition and any machinery used must be safe with safe systems of work set out for the operation including the provision and use of personal protective equipment. A risk assessment must be prepared that conforms to the Control of Substances Hazardous to Health Regulations as hazardous substances are in use in this area.

Any items that are stored must be stored in accordance with specific instructions outlined by the YAS and must be stored safely. Exhibitors and contractors must ensure that the storage of any items or equipment does not contravene fire safety regulations.

### **Use of Barbecues**

The use of barbecues by exhibitors or contractors is not permitted within the showground perimeter unless they form part of a legitimate trade stand demonstration and the necessary safety controls are in place. The Trade Stands Officer must be notified prior to the Show if a barbecue is to be used and approval given in writing. The use of barbecues in the cattle sheds is strictly prohibited.

### **Furniture & Equipment in the Cattle Sheds & Marquees**

Only flame-retardant folding picnic chairs are permitted in the cattle sheds & marquees. **Settees and other items of bulky furniture e.g. fridge, freezers, etc.**, are not permitted as they pose a significant fire risk and will be removed.

# **Livestock Exhibitors Disease Control Obligations**

The health of all animals and people present during the Great Yorkshire Show (GYS) is of paramount importance to the organisers. As such, we would like to remind livestock exhibitors of their responsibilities with respect to the health of their animals.

Only fit and healthy animals should be transported to the Show. Any clinical signs of disease, however mild, detected on farm must result in the affected animal(s) remaining at home and not travelling to the GYS. This is the cornerstone on which high levels of Biosecurity can be built at the Show. Once on the Showground, if any animals develop any signs of illness one of the Show Veterinarians should be alerted immediately.

If we all ensure only healthy animals arrive at the GYS and if any animal becomes sick at the Show, prompt veterinary care is sought we minimise the risk of;

- A Notifiable Disease Outbreak
- Zoonotic Infections passing from livestock to people.
- Endemic Veterinary Diseases spreading between pens/stalls.

Thank you for your cooperation and understanding.

## **COVID-19 & Other Public Health Safety Measures**

The Event Safety Officer is the designated COVID-19 Officer for the Show if required, and will be assisted in this role by Society staff, stewards and other contracted security and medical staff.

The Show will adhere to and have in place any Government health safety measures during the build up to, and when the Show is open to the public if required at this time.

If you are feeling unwell before you attend the Show you must stay at home. If you feel unwell when you are at the Show, STOP what you are doing and go straight to the Medical Centre on the near White Gate.
